## PROFILE SUMMARY

I am a dedicated Frontend Web Developer with solid experience in crafting user-friendly and responsive websites. With expertise in front-end technologies like HTML, CSS, JavaScript, React, and Redux, I thrive in creating seamless, dynamic web applications. I am always eager to learn new tools and techniques to improve both my technical skills and the quality of my projects.

## WORK EXPERIENCE

### Acolyte Technologies

MAY 2024 - PRESENT

#### Frontend web Developer

- Developed and maintained user-friendly, responsive web applications using HTML, CSS, JavaScript, React, and Redux, enhancing user experience and functionality.
- Utilized Bootstrap and Tailwind CSS frameworks to build mobile-first, responsive web pages that adapt across various devices and screen sizes.
- Wrote clean, reusable code with a focus on scalability, maintainability, and adherence to industry best practices.

## PROJECTS

### 1. Vajravel Traders

Role: Frontend Web Developer

Developed a responsive and user-friendly website for Vajravel Traders, utilizing HTML, CSS, JavaScript, and React.

Focused on optimizing website performance and mobile responsiveness, ensuring smooth navigation across devices.

### 2. Sloane Virtual Hospital

Role: Frontend Web Developer

Built an intuitive front-end interface for Sloane Virtual Hospital, allowing users to book appointments and view doctor profiles.

Implemented real-time features, such as appointment scheduling and patient data management, to streamline healthcare services.

### 3. Paruit Trading

Role: Frontend Web Developer

Developed the front end of a trading platform for Paruit Trading, creating dynamic and engaging user interfaces.

Integrated real-time data visualization tools for tracking stock market trends and trade performance.
